

## ABOUT US

At Lohakart, we are redefining the steel industry through an AI-powered, ESG-aligned Steel-as-a-Service platform that integrates procurement, processing, fabrication, and recycling within a carbon-aware ecosystem. By combining conventional and green steel sourcing with recycling solutions, carbon accounting, and a marketplace for offsets, we deliver efficient, data-driven, and sustainable supply chains. Our digitally integrated platform ensures seamless logistics and end-to-end visibility, enabling businesses to access high-quality steel and sustainability solutions with ease — so they can focus on what they do best: growing their business.

## WHAT WE DO

At Lohakart, we provide an AI-powered, ESG-aligned Steel-as-a-Service platform that brings together the entire steel lifecycle. From smart procurement of conventional and green steel to in-house and partner fabrication, and from recycling solutions to integrated carbon accounting and offset marketplace, we make steel supply chains smarter, more transparent, and sustainable. Our platform empowers industries with real-time insights, pricing intelligence, and carbon-aware decision-making, enabling them to save costs, reduce emissions, and unlock new value through verified carbon credits.
